3. On or about January 6, 2001, I approached Emre Oksan of Mount Prospect, Illinois on behalf of The Whittier Group to work with me and David Munoz, at the expense of The Whittier Group, to develop a system and method for automated prescription management.
4. Mr. Oksan executed an Assignment of Invention (attached hereto as Exhibit A) on January 6, 2000.
5. After the present invention was reduced to practice, I proceeded to have a provisional patent application prepared, with the cooperation of Mr. Oksan, on behalf of The Whittier Group. The provisional application (60/192,643) was filed on March 27, 2000.
6. Before the patent application was completed and ready for execution, Mr. Oksan left the employ of The Whittier Group. All efforts to contact Mr. Oksan to execute the application have been unsuccessful as he has moved from his last known address and has not left a forwarding address.
7. After the filing of the provisional application, I proceeded to have the above-identified non-provisional patent application prepared on behalf of The Whittier Group. The non-

Attached hereto is a copy of a June 10, 2001 certified letter from The Whittier Group to Mr. Oksan at his last known address, and a copy of the certified mail receipt showing that the letter was mailed to the last-known address of Mr. Oksan.

9. On May 25, 2001 the U.S. Patent Office mailed a Notice of Missing Parts, with a two month shortened statutory response period. To preserve its legitimate rights in the United States and in foreign countries and to prevent irreparable damage, The Whittier Group must immediately file a Declaration of Inventorship in the above-identified application on behalf of the unavailable inventor.

I declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
